

LEGACY[®]

Low Maintenance Battery

The Legacy[®] Low Maintenance Battery delivers the power and cycle life associated with a standard flooded battery with lower maintenance costs.

Our proprietary hybrid grid alloys allow extended watering intervals up to 90 days apart. The Legacy[®] Low Maintenance Battery can be charged with all types of chargers. Douglas[™] Battery engineered the Legacy[®] Low Maintenance Battery without compromising the internal structure of the cell.

Compared to a standard flooded battery, the Legacy[®] Low Maintenance Battery increases your efficiencies with less water intervals and fewer problems.

The Legacy[®] Low Maintenance Battery features a new internal design that takes advantage of optimized grid metallurgy to give true low maintenance performance and unquestionable quality.

LEGACY[®] Low Maintenance Battery

LEGACY[®] Low Maintenance Battery

LEGACY® LOW MAINTENANCE BATTERY

The Legacy® Low Maintenance Battery, working in the normal operations of day-to-day services, will provide less watering frequency but should not exceed a 90-day watering interval. Due to varied use, operations and battery age, battery water intervals will vary.

The Legacy® Low Maintenance Advantage

- Patented plate design— provides reliable performance through retention of active material
- A full capacity low maintenance battery— offered in 85, 100 and 125 AH for most applications

Flip-Top Vent Caps for Easy Watering

- Safe, easy and convenient operation
- Save time and money
- Eliminate lost vent cap
- Water level indicator (basket) for more accurate filling procedures

Quick-Connect Cables – Optional

- Make cable replacement as simple as turning a bolt
- Reduce downtime
- Environment friendly

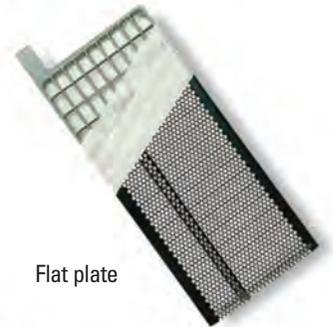

Five-Fold Plate Insulation System

- Vertical fiberglass strands, woven glass mat, compressions mat, rigid perforated PVC shell and sleeved separator.
- Assures dependable performance for many years under roughest working conditions

Premium Douglas™ Tray Coating

- Electrostatic, baked-on epoxy on tray withstands corrosion and the roughest working conditions
- Reduces voltage tracking and shorts
- Saves maintenance on lift truck roller compartments

5-Year Limited Warranty
