Information Solutions

DOUGLAS *DataTrac*™ *Reporting Suite*

Douglas DataTrac™ Reporting Suite is a user-friendly reporting program that allows you to compile the data gathered by the Douglas DataTrac™ device. With this information you can monitor the usage, charge cycle, water level, temperature and equalization of every battery. The reports can help you determine the behavior of your team and when it may be necessary to make a service call.

The Douglas DataTrac device allows you to monitor battery usage, charge return, water level, temperature and equalization, and works seamlessly with Douglas DataTrac™ Reporting Suite software.

DOUGLAS DATATRAC™ REPORTING SUITE

DOUGLAS *DataTrac™ Reporting Suite*

Douglas DataTrac™ Reporting Suite allows you to view and monitor the smallest detail of your fleet. Reports also allow you to see and determine opportunities for cost savings as well as productivity gains.

Upload data to laptop or tablet within a range of up to 100 feet. Douglas DataTrac™ Reporting Suite analyzes DataTrac data so you can easily maximize personnel and asset performance, minimize asset inventory and increase productivity. The DataTrac dongle fits any USB drive and will collect the data from the DataTrac devices with ease.
