**Millennium Plus+<sup>TM</sup>** Single Point Watering System makes the difficult task of watering industrial batteries simple. It consists of automatic shut-off valves, interconnected with tubing, that replace the existing vent caps. A quick coupling allows the system to be connected to a water supply. Once connected, water flows into each cell until it reaches the correct level.

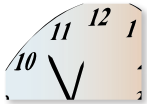

**Safety**

Fill batteries without having to remove the vent covers. Avoid battery acid burns, ruined clothing, and noxious fumes.

**Extend Battery Life & Performance**

A properly watered battery lasts longer and performs better. Overfilling or underfilling will result in loss of capacity and life expectancy.

**Time Saving Convenience**

Snap on/snap off water connections allow you to fill each battery in 30 seconds or less!

## Features & Benefits

### Optical Level Indicator

Check your electrolyte levels without having to remove your watering system.

### Wide Pressure Range: 3-35 psi

Millennium's patented technology eliminates the need to buy expensive water supplies to generate high pressure and flow.

### Clampless Polypropylene Tubing

Patented tubing is acid and heat resistant.

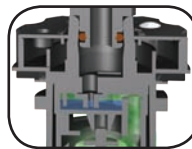

### Acid Resistant Components

All components are made of the same plastic as the battery which is acid, temperature, and impact resistant.

### 3-Port Swivel T

Patented Three Port Swivel rotates a full 360 degrees allowing for a more versatile installation.

### Internal Water Lock

In the event of a fire, this eliminates the possibility of flame propagation between cells via the watering system.

### Low Profile

The patented low profile design keeps all components of the watering system out of harm's way.

### 5 Year Warranty

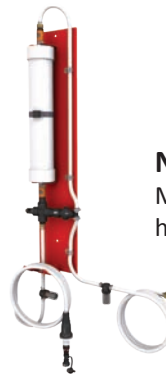

We offer a full 5 year warranty on all Millennium Plus+™ components (excluding water supplies).

## Water Supplies

### Regulated Hose Supply

Our number one seller, has no bulky components to mount and no valves to open or close. No tools Required -just screw the hose onto a standard garden hose bibb.

### Niagara Deionizer

Maximizes battery life by removing ions and heavy metals that are present in tap water.

### Portable Watering Cart

The AC & DC portable watering carts are ruggedly constructed of lightweight yet strong polyethelene plastic, and features a large 22 gallon holding capacity.

### Hand Pump

Perfect for the person who has their own golf cart, utility vehicle, or other light use application.
